## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's amendment filed 2-3-03 (Paper No. 16) is acknowledged and has been entered.

Claims 1-46 are pending. Claims 5-15, 21-31 and 40-46 have been withdrawn from consideration. Claims 1-4, 16-20 and 32-39 are under consideration.

In view of said amendment, the 112 second paragraph has been withdrawn.

In view of said amendment which contained a statement that the substitute specification contains no new matter, the substitute specification filed 1-23-01, has been entered.

However the outstanding 102 (f) rejection has been maintained.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –  
(f) he did not himself invent the subject matter sought to be patented.

MAINTAINED Claims 1-4 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The instant specification discloses on page 31 of the substitute specification and page 34 of the originally filed specification that the terpolymer consisting essentially of tyrosine, alanine and lysine randomly polymerized into a polypeptide, wherein said tyrosine is present in a mole fraction of about 0.102, said alanine is present in a mole fraction of about 0.542, and said lysine is present in a mole fraction of about 0.353 was obtained from Teva Pharmaceuticals Industry. It is noted that Teva Pharmaceuticals Industry is not an assignee either. Clarification is required in order to overcome this rejection.

Art Unit: 1644

***Response to Arguments***

Applicants state that Teva Pharmaceutical Industries is a licensee under the subject application, but applicants have not as of the time of filing said amendment completed their investigation.

***Allowable Subject Matter***

Claims 16-20 and 32-39 contain allowable subject material.

***Conclusion***
